

Browser

Iceraven

Iceraven Browser is a web browser for Android, based on [Mozilla's Fenix version of Firefox](#), [GeckoView](#) and [Mozilla Android Components](#).

Our goal is to be a close fork of the new Firefox for Android that seeks to provide users with more options, more opportunities to customize (including a broad extension library), and more information about the pages they visit and how their browsers are interacting with those pages.

Download and install apk

Install Iceraven (FFUpdater) via [F-Droid](#) - <https://f-droid.org/en/packages/de.marmaro.krt.ffupdater/>.

Tor Browser

Download and install apk

Install Tor Browser via [F-Droid](#).

Enabling the [Guardian Project's Repository](#) - how to [add a repo to F-Droid](#).

Add-ons

Check our [Add-ons](#) list.
